

RAYMOND® 4810 SIT-DOWN COUNTERBALANCED TRUCK

TAKE GREATER PRODUCTIVITY INTO THE GREAT OUTDOORS.

Whether you're working inside or out, the Raymond 4810 Sit-Down Counterbalanced Truck gives you a high-capacity, high performance electric forklift designed to help you operate more efficiently, comfortably, and productively.

Ideal for a variety of industries—including agriculture, oil and gas, and other heavy-duty indoor/outdoor applications—the 4810 is available with a range of capacities (8,000, 9,000, or 11,000 lbs.) to suit your specific needs.

FEATURES & BENEFITS

MULTIPLE CABIN OPTIONS

- + Enhance operator comfort and productivity in a wide range of applications.

PNEUMATIC TIRES

- + Allow smooth, comfortable operation on indoor and outdoor terrain.

PERFORMANCE STABILITY SYSTEM™

- + Helps minimize damage to goods and facilities with active mast control, and active rear axle swing lock.

ERGONOMIC OPERATOR COMPARTMENT

- + Includes a fully adjustable, full-suspension, cushioned seat, tilt steering wheel, and ergonomically placed controls for greater comfort and productivity.

CONVERT FROM IC TO ELECTRIC

The Raymond 4810 allows you to switch from IC to electric-powered trucks, giving you a sustainable, reliable, economical fleet without compromising on capacity, performance, or productivity.
